ABOUT ME

HARDWARE & SOFTWARE ENGINEER

I lead automation and control solutions oriented towards the Internet of Things and Industry 4.0; I am very passionate about hardware and software development, so I have focused my academic training on three areas of engineering: Electronics, Systems and Telecommunications; in order to have a broader vision of the projects I lead. I have faced the development of several engineering projects, mainly focused on automation solutions and control of industrial processes..

WORK EXPERIENCE

2021-…	Project Engineer @Telemetrik	COLOMBIA
2018-2021	Automation & Control Engineer @ECOLUZ	COLOMBIA
